Commission sales

When an item or items are of a higher value, we offer a commission sales service. This is where, instead of us buying your items outright, we will agree a price that you will receive when it sells. It makes selling things like your travels systems easier for you! Please read this agreement carefully as these are the terms you will be entering when selling your items in this way:

- All items must be clean and ready to sell - we will not accept items that need cleaning . If you need us to clean them for you then this will be reflected in the price you receive. However, we cannot take responsibility in the unlikely event that items get damaged during the cleaning process.
- We will take commission of between 30% and 50% of *our* retail price. This is for the advertising, overheads and priority sales your items will get.
- In the unlikely event that after 3 months your items haven't sold, you can choose to either take your items back or reduce the selling price (and therefore your share).
- If at any point during the selling process we think that your item needs a reduction/increase in price, we will always agree that with you first.
